SUMMARY:

MCA student and full-stack developer, comfortable across Python, Flask, PHP and MySQL with two complete projects built rather than just coursework exercises. Currently picking up Django to strengthen backend fundamentals.

EDUCATION:

- **Master of Computer Applications** 2026 - 2028
Francis Xavier Engineering College
 - **Bachelor of Science in Computer Science** 2022 - 2025
St. Mary's College
-

SKILLS:

Languages: Python, PHP, Java, JavaScript, HTML, CSS

Framework: Flask (currently learning Django)

Tools: Git/GitHub

Database: MySQL

Soft Skills: Team Work, Communication, Leadership

PROJECTS:

Fine Arts Management – Event Management System

Tech stack: PHP, HTML, CSS, JavaScript, MySQL

- Led the team in building an event management system with separate admin and user sides.
- Managed events, venues and scheduling, plus a judging module for scoring performances.
- Solved data synchronization across scheduling to keep venues, timings and events clash-free.

BookmarkHub – Personal Bookmark Organizer

Tech stack: Python, MySQL, Flask, HTML, CSS

- Built a full-stack bookmark manager to keep saved links organized in one place.
 - Implemented session-based authentication and full CRUD functionality.
 - Designed a relational MySQL schema from scratch, linking users to their bookmarks via foreign keys.
-

CERTIFICATION:

- Learn HTML and CSS from Beginning to Advanced – UDEMY
